

COVID-19-Information (28.08.2020)

1. INFORMATION FOR RETURNING TRAVELLERS

THERE IS A **TEST OBLIGATION** FOR THOSE ENTERING FROM RISK AREAS. AS LONG AS NO NEGATIVE TEST RESULT IS AVAILABLE, PEOPLE ENTERING THE COUNTRY FROM RISK AREAS HAVE TO GO INTO A 14-DAY QUARANTINE.

If you return to Mannheim from a risk area, you must report immediately to the City of Mannheim! Please send an email immediately after your return to 31corona@mannheim.de

[In the email, all persons of your family/household who entered the country must be listed: with names, with dates of birth, with date of entry, with flight number if applicable, from which country/countries you returned and where you stayed 14 days before entry.

The city of Mannheim needs your e-mail address, your home address (where the quarantine is being held) and, if possible, a telephone number, so that we can contact you quickly.]

2. WHERE AND HOW TO HAVE IT TESTED?

The regulation obliges people entering Germany from risk areas to have a corona test done when they enter Germany. Alternatively, those entering the country can present a negative test result, which must not be older than 48 hours.

The test must have been performed in a member state of the European Union or in another laboratory listed by the Robert Koch Institute at www.rki.de/covid-19-tests. The test certificate must be written in German or English. You can find the exact wording of the regulation on the testing obligation of persons entering Germany from risk areas under
