曼海姆 - 四方之城

曼海姆如同海德堡和路德维希港一样同属于莱茵内卡都会区。曼海姆拥有240万居民,是德国最重要的商业中心之一。

曼海姆的别名“四方城”出自于它古老的城内布局。历史悠久的内城规划舍弃了传统的街道铺设方式,别出心裁地采用了以144个建筑群为基础的棋盘式格局。曼海姆内城的街道都是以字母和数字来命名,比如E5(市政厅)。曼海姆市政府的全新徽标 Mannheim²(曼海姆平方)的设计灵感也来源于此。

MANNHEIM – THE CITY OF SQUARES

Mannheim, along with Heidelberg and Ludwigshafen, belongs to the Rhine-Neckar Metropolitan Region. With its 2.4 million inhabitants, it is one of Germany's most vital locations for business.

Mannheim is known as the City of Squares due to the unique layout of its historic city center. The city is structured in 144 blocks, in a grid.

Throughout the city center, blocks, not streets, are named with letters and numbers, e. g. E5 (the address of City Hall). The numbers are organized like a chessboard. This also explains the modern logo of the city administration: Mannheim².

在曼海姆的城市建筑中可以看到许多不同年代的历史足迹。曼海姆在1720年至1760年间蓬勃发展。曼海姆宫廷是仿照凡尔赛宫建造的,是世界上最大的宫殿建筑群之一,也是仅次于凡尔赛宫的第二大巴洛克风格的宫殿。

Mannheim – a city where many different decades of history are visible in its urban fabric. The city flourished between 1720 and 1760, when the Mannheim Palace was constructed in its current form. The palace was modelled on the palace of Versailles. It is one of the largest palace complexes in the world, and the second largest in the Baroque style after Versailles.

Mannheim Central Station runs 650 trains and carries around 110,000 passengers per day, making it the second largest train hub in southwestern Germany.

曼海姆港是德国第二大内陆港口 (仅次于杜伊斯堡), 也是欧洲最重要的内陆港口之一。曼海姆港体现了多式联运, 不仅有公路和铁路在此交汇, 还有两条德国的主要河流 (莱茵河与内卡河) 汇集于此, 提供各种转运设施和物流服务。目前, 曼海姆还开通了每周两班通往中国的货运列车。

The port of Mannheim is the second largest inland port in Germany (after Duisburg) and one of the most important inland ports in Europe. It embodies multimodal transport.
