

Upbringing & Educational Counselling – Psychological Counselling Centre for Children, Adolescents and Parents

The Psychological Counselling Centre offers advice and assistance in questions of upbringing, education, family and personal problems

- if you are concerned about the proper upbringing and education for your child
- if there are conflicts in the family or you would like to improve the coexistence within the family
- if you are faced with a separation or are already divorced and worried about the impact this has on your children
- if any abnormal behaviours are becoming evident at school or Kindergarten
- if there are personal problems

Children and teenagers without their parents or guardians are also welcome to turn to those of us responsible for children, young people and families.

We do our utmost to give you the quickest possible appointment for an initial conversation in which we then discuss your questions and concerns and their background; during this appointment, we will also discuss how we can help you.

We are a team of graduate/qualified psychologists and graduate/qualified social educationalists and social workers with training in, inter alia, behavioural therapy, conversational psychotherapy, systemic therapy, family therapy, hypnotherapy and supervision.

The best thing you can do is to just call one of our member agencies near your place of residence (see the column on the right) and make an appointment.
