Frühe Hilfen

STADT MANNHEIM²

Children, young people and families
– Youth Welfare Office –

DEAR PARENTS,

Pregnancy and the first few years with a child are a very exciting and turbulent time, full of unfamiliar tasks and questions.

- How can I work out what my child wants to say to me?
- Is my child healthy and developing well?
- How do I manage to keep an eye on my own needs?

Would you like some support and assistance?
Our office is open to all Mannheim parents.

OUR SERVICES

We offer you

- Support from a **family midwife**, who will assist you in the first year of your child's life,
- Information about the various **parent-child programs** in Mannheim, such as mother and toddler groups and open meetings at our parent-child centers,
- Help in arranging the right contacts, if your concerns are **financial or medical matters**,
- Advice on support options for families, e.g. voluntary **godparents** or **educational assistance**.

We look forward to hearing from you – gladly already during the pregnancy, too.
