

The Spielmobil (Mobile play centre)

[The Spielmobil](#) has set itself the task of re-conquering play spaces and play dreams for children. Children get to know the world through play. Their dreams represent motors for their development, and therefore also a motor for the development of our society. We want to support children by allowing at least part of their dreams to come true.

The Spielmobil can be found in public places in Mannheim, conducting play and holiday events, cooperating with primary and secondary schools (schools in green parks) and operating the circus school Trolori in Neckarstadt. Every two years, the Spielmobil constructs the Luisenstadt (city) in the Unteren Luisenpark with children in the Whitsun holidays.

The sponsor of the Spielmobil is the Children, Youth and Family Specialist Division at the Youth Welfare Office - [Youth Support](#).

During the Spielmobil events, all children between 6 and 14 years can participate. Participation is voluntary; registration is not necessary. The children should be in a position to arrive at and leave the area freely.
